- ⑧ Protection by rotating rollers

MADE IN FRANCE

MECHANICAL WEEDERS

Functions of StabNet mechanical weeders 55/70/90P

The StabNet 55/70/90P are multi-purpose mechanical weeders that can be fitted to a wide range of carriers. These machines can be used for maintenance or curative weed control at high output. They work BOTH forwards and backwards, and feature a tilt function, making them highly productive. The machines can also be used for levelling, decompacting and reprofiling driveways. Optional stripping and finishing kits can be fitted to the rear of the carriers.

Quality of service

A large stock of spare parts is permanently maintained at our factory. Our partners have online tools and quick access to manufacturer information. Maintain the quality and performance of your Rotadairon® by using only original parts.
