TRACTOR-MOUNTED MECHANICAL WEEDERS

Functions of the StabNet 90T tractor-mounted mechanical weeders

The StabNet 90T is a multifunctional mechanical weeder. The machine can be used for maintenance or curative weeding at high output. It works in BOTH forward and reverse and has a tilt function, making it highly productive. The machine can also be used for levelling operations, decompacting and reprofiling driveways.

Quality of service

A large stock of spare parts is permanently maintained at our factory. Our partners have online tools and quick access to manufacturer information. Maintain the quality and performance of your Rotadairon® by using only original parts.
