TRACTOR-MOUNTED MECHANICAL WEEDERS

Functions of the StabNet 120T tractor-mounted mechanical weeders

The StabNet 120T is a multifunctional mechanical weeder. The machine can be used for maintenance or curative weeding at high output. It works in BOTH forward and reverse and has a tilt function, making it highly productive. The machine can also be used for levelling operations, decompacting and reprofiling driveways.

Quality of service

A large stock of spare parts is permanently maintained at our factory. Our partners have online tools and quick access to manufacturer information. Maintain the quality and performance of your Rotadairon® by using only

- 1 Weed control: weeding deck (Patent)
- 2 Raking : row of fixed or free-standing spreader flails
- 3 Finishing harrowing: shakes off unwanted weeds
- 4 Rear roller: for a smooth finish
- 5 Steering wheel adjustment : depth
- 6 Steering wheel adjustment : rolling
- 7 Steering wheel adjustment : remote hitche
- 8 Option : edge trimmer with sharpened disc
