SELF-PROPELLED MECHANICAL WEEDERS

Functions of the Primo 55 self-propelled weeder

The StabNet PRIMO 55 is a simple, economical stand-alone mechanical weedkiller. The machine can be used for both curative and maintenance weeding.

It works in BOTH forward and reverse gears and has a tilt function, making it highly productive.

It is fitted with rotating rollers to protect street furniture.

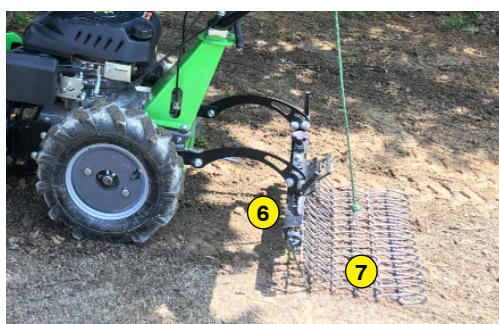

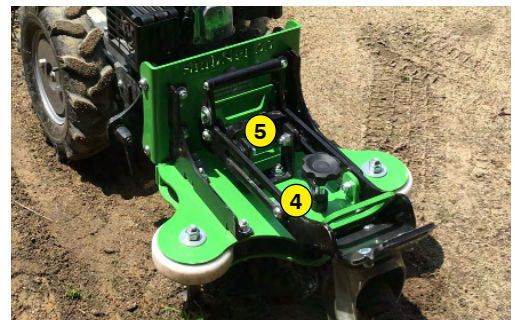

It can also be used for levelling, decompacting and reprofiling driveways.

Quality of service

A large stock of spare parts is permanently maintained at our factory. Our partners have online tools and quick access to manufacturer information. Maintain the quality and performance of your Rotadairon® by using only original parts.

- 1 Weed control: weeding deck (Patent)
- 2 Height-adjustable and orientable handlebars
- 3 Handlebar control: forward and reverse
- 4 Setting of the working depth
- 5 Quick adjustment of working, transport and levelling positions
